THE returns are not all in from the Second Congressional district, but enough is known to know that Judge Houk's majority will be between 2,500 and 3,000. We will publish the official vote as soon as received.

THE news gets better and better. Wednesday morning it was understood that the Democrats had carried every district in North Carolina. Now it appears that the Republicans have carried two districts, a gain of one-third cheers for the old North State. She will wheel into the Republican line yet.

INDICATIONS: For the Middle Atlantic States, colder and partly cloudy weather, occasional light rain or snow, winds most westerly, followed by a rising barometer. South Atlantic States, an increasing cloudiness, frequent rain, warm southwesterly veering to colder northwest winds, followed by a rising barometer. Gulf States, warmer, partly cloudy weather, occasional rain, variable winds, stationary or rising barometer, followed to-morrow and north and west portions by lower temperature. Tennessee and Ohio Valley, colder, partly cloudy weather, occasional rain, northwesterly winds and rising barometer, followed to-morrow in the Ohio Valley by a rising temperature. For the Lower Lake region, partly cloudy weather, occasional light rains or snow, northwesterly winds and falling barometer, followed by a rising temperature and higher pressure.

THE Nashville American of last Sunday contains the following:

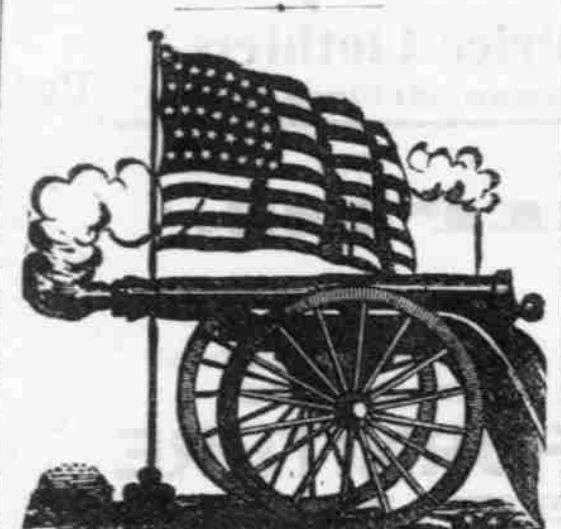

"It is rumored that all the colored land-holders in and near Celina received notices from unknown parties within the last ten days to leave the State within a short time. Quite a number of them crossed the river at Celina the thirtieth ultimo, to hunt a new land of promise. They seemed to know who the parties were that had given the notice, but refused to give the names through some fear of harm. Josh Hill, Reuben Hill, Tobias Stone, Will Dock and Bill Stone, all land-holders, were among the number to cross the river Wednesday morning last. About three years ago the colored people above referred to built a church near Celina, and about the first of last July they established a school in said church. Some time in July the church was burned down by unknown incendiaries. The colored people then established their school in a little log cabin upon the side of the mountain, about the first of September. About the last of the same month the house was one night discovered to be on fire. Josh Hill and Jim Thomas, colored, both were fired upon by unknown parties, and compelled to flee for their lives. Attorney-General Snodgrass had a number of witnesses summoned before the grand jury at the last term of the May County Court, but failed to elicit anything more than general facts, and was not able to fix the responsibility on any one."

This is a great outrage, and if our State Government can not protect their men, it is unworthy of respect.

In the October and November elections the Republicans have carried Connecticut, Illinois, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, Nebraska, New Hampshire, New York, Ohio, Rhode Island, Pennsylvania, Vermont and Wisconsin. These States have 197 electoral votes. It requires 185 to elect a President. The political skies are bright, and inflation Democracy is doomed.

Sweeping Republican Victories in Many States.

With a Most Brilliant Outlook for 1880.

Glory Enough for One Contest.

Our telegraphic news this morning is meager, but taken together with what we receive through our exchanges, enough is known to say that Tuesday's election resulted gloriously for the Republican cause. We have carried New York on the State ticket, gained at least two Republican Congressmen, and elected a Republican Legislature.

Pennsylvania, Michigan, Illinois, Kansas, Minnesota and Wisconsin have all gone Republican by increased majorities. It is a victory of which the Republicans may well feel proud, and one that will spread consternation in the ranks of Democracy.

ELECTION NEWS.

ST. LOUIS, Nov. 7.—A dispatch from St. Joe says Nicholas Ford, Greenback Republican, is elected in the Ninth district over David Rea, Democrat, the present incumbent, by about 1,200 majority.

NEW YORK, Nov. 7.—A dispatch from Mobile, Ala., announces that Herndon, Democratic hard money candidate, will have a majority of 1,000 in that district.

WILMINGTON, N. C., Nov. 5.—There seems to be no doubt that the Congressional delegation from this State will consist of six Democrats and two Republicans; a Republican gain of one.

CHYENNE, WY., Nov. 7.—Downy (Rep.), delegate to Congress, is elected by about 900 majority.

YELLOW FEVER.

MEMPHIS, Nov. 7.—There have been no new cases of yellow fever to-day.

NEW YORK.

NEW YORK, Nov. 7.—Judge Hilton rushed into police headquarters this morning greatly excited, and held a consultation with Inspector Dilkes. He stated that the body of A. T. Stewart was missing from its resting place in the family vault in St. Mary's Church yard, St. Margaret Place and Second Avenue. The vault, he said, had been broken open. The casket was found in the vault, but the body was missing. Inspector Dilkes at once sent out the following general orders to all precincts:

The remains of A. T. Stewart were last night stolen from the family vault in St. Mary's church yard. The casket was found broken and the body removed. The decomposition of the remains is so offensive that they can not be concealed. This is apparent from standing at the opening of the vault this morning, consequently it can not be taken across the ferries without discovery. Cause a diligent search to be made in your precinct, as the remains were evidently stolen with the hope of reward.

GEORGIA.

ATLANTA, Nov. 7.—Governor Colquhoun's annual message was read to-day, showing that the finances of the State are in a very satisfactory condition. The balance in the Treasury October 1st was \$295,789. No State, in his opinion, should have a stronger financial reputation. He recommends the establishment of an Agricultural College in the old Capital building at Milledgeville. He speaks favorably of the common school system, and advises a sale or long lease of the Macon and Brunswick Railroad. He defends at some length the State's endorsement of first mortgage bonds of the Northwestern Railroad Company. There is no allusion to Federal affairs.

OHIO.

COLUMBUS, Nov. 7.—Governor Bishop pardoned James D. McCoy, alias Richard Roe, the notorious bank burglar who was serving out a sentence of ten years. Roe is of a good family, and was recently left a large estate by the death of his father.

THE EAST.

LONDON, Nov. 7.—The Manchester Guardian's London correspondent says: "Before the plenipotentiaries left Berlin Lord Beaconsfield and Count Andrassy signed the treaty, providing if Russia should endeavor to remain on Turkish territory after May, 1879, England and Austria will insist on her complete withdrawal. If Russia should urge that Turkey is unable to protect Christians, owing to the disturbed state of affairs in Roumelia, England and Austria will furnish a garrison to relieve the Russians. The purport of this treaty is communicated to Russia."

Leopold Rouke, German historical writer, is dangerously ill.

What Alcohol Will Do.

It may seem strange, but it is nevertheless true, that alcohol regularly applied to a thrifty farmer's stomach, will remove boards from the fence, let the cattle into his crops, kill his fruit trees, mortgage his farm, and sow his fields with wild oats and thistles. It will break the glass out of his windows and fill them with rags; it will take the polish from his manners, subdue his reason, bring sorrow and disgrace upon his family, and topple him into a drunkard's grave. It will do this to the mechanic and the capitalist, as well as the farmer, for in its deadly hate to the human race, alcohol is no respecter of persons.

How to Study.

Keep the mind bright, and its powers fixed upon the subject of study. Take up the lesson with a firm resolve that it shall be earnestly and thoroughly sifted, its facts clearly seen and noted, its teachings discovered and put away in the

mind, and that nothing shall be allowed to divert the attention from the beginning to the end of the time of study, whether that time be an hour or five minutes.

Fight vigorously against a listless, inattentive way of reading over the words, without considering what they mean. Never allow the eye to see and the voice to pronounce a sentence when the mind receives no idea whatsoever from the words or phrases which are read. If the mind can not be held closely for a long time to any one thing, still insist that for the time it professes to be looking into the lesson the attention must be fixated upon that one thing, and that very other thing must be shut out. Better study thus with an undivided attention, for ten minutes, than to spend three times ten minutes in pretending to study, while the mind is allowed to ramble to the "ends of the earth." Good habits in study are more important when we are searching after heavenly wisdom than when we are seeking for earthly knowledge.

Personal.

Rev. Dr. Jas. Park, and Messrs. Brownlee and Cooley, of this city, Rev. E. A. Ramsey, of Maryville, and others went yesterday evening to Morristown to attend the Synod of Nashville, Presbyterian Church, which met there last night.

Mr. N. Bogart, of Philadelphia, came yesterday evening and is at the Altair House.

Mr. Tom F. Turley, who has been in the city several weeks as a yellow fever refugee, left yesterday, returning to Decatur, Alabama, where he is engaged in business.

Mr. J. M. Anderson, came over yesterday from Montvale, and left returning to Atlanta, where he is engaged in business for Messrs. J. P. Beach & Co., millers, of this city.

We failed to note the departure, on last Tuesday morning, of Mr. S. F. Goodykoontz and family, who left for Waukon City, Iowa, to take up their future residence. Mr. Goodykoontz was an enterprising citizen and one whose loss will be felt in the community, while his accomplished daughters, Misses Myra and Stella, by their affable and genial manners, endeared themselves to all with whom they came in contact. They were joined here by Miss Dora Goodykoontz, of New Market, who goes to spend a year with her brothers at that place. They have a host of friends here whose best wishes they carry with them to their new home.

Dangerously Burned.

About half past seven o'clock yesterday evening Julia Donahoe, a young lady about 16 or 17 years of age, living on Park street, North Knoxville, met with a serious accident by burning. She was in a room by herself where a coal fire was burning in the grate, and raising up to reach for something on the mantle piece, her clothing caught fire and flamed up at a furious rate. She was panic-stricken, and not knowing what to do, ran screaming out through the yard to the street, her velocity just adding fuel to the flames until she was entirely enveloped.

Her cries and the fire attracted the attention of her brother-in-law, Capt. Wm. Kerr, and his wife, who were just across at Donahoe's store, and they rushed to her relief, and by presence of mind in gathering some bed clothes and wrapping around her succeeded in smothering the flames before they had reached her head and face. She was badly burned about the body and limbs, however, and her clothing burned almost entirely off.

Dr. Ludlow was summoned and rendered all the attention possible, and at midnight she was resting somewhat easy, but her condition was regarded as very critical. She was the youngest sister of Johnnie Donahoe, of the firm of Shea & Donahoe, who were burned out a few months since. We trust that with careful nursing and attention she may recover from the terrible accident. Mrs. Kerr had one hand badly burned in her heroic efforts to save the life of her sister.

Bristol as a Matrimonial Mart.

Our neighboring town, the far famed Bristol-on-the-lake, is making for herself quite a reputation of late as a matrimonial mart, especially for the railroad boys. Whenever one of them wants to marry, which is of frequent occurrence, it seems that they make straightway for Bristol and have no trouble in making up a match. As it now stands only one baggage master on the line remains unmarried—Dick Yearwood—the last two having taken Bristol girls in the past two days, and it is said he found her on the last visit. Bristol certainly has her complement of pretty, marriageable girls, so that the rest of the boys need not be discouraged and think there is no chance for them.

THE Republicans have carried enough States in the October and November elections to insure them a majority of twelve in the Electoral College in 1880. And yet the Knoxville Tribune brings out that same old rooster that has been whipped so often,

Court House Repairs.

Mr. James Cotton, sr., who was employed by chairman T. W. Kearns completed the job of raising the floors in the two court rooms of our court house. There was a swing of about 7 or 8 inches at the middle pillars, caused by the settling of the foundation. The lower floor was brought to a level by jacking up the sleepers, and this settled the upper floor back to its natural position, and improved the appearance of things wonderfully. Esq. Kearns has also had three large iron bolts run through from side to side, which will make the walls perfectly safe, and with a little plastering overhead and some finishing touches inside the old affair will present a very creditable appearance yet. Some new windows will be put in also, and other necessary improvements, the entire cost of which will not exceed \$100 perhaps, and will put the court rooms in very good shape.
